## Level 2 – Chair Yoga

### WHAT IS CHAIR YOGA?

Chair Yoga is a modified form of Hatha Yoga, which allows students with disabilities lack of mobility, balance problems, joint challenges, recovering from illness, accidents and operations, or other physical issues to participate in and enjoy the benefits of a yoga practice.

Chair Yoga is aimed at the reduced physical capabilities of a significant portion of the population – aged or otherwise.

### What is taught in a Chair Yoga class?

Chair Yoga is an intelligent and dynamic approach to Hatha Yoga incorporating a synergistic mix of 5 traditional elements:

- **Centering:** non-religious meditation
- **Breath Work:** yogic full breath and ujjayi pranayama
- **Postures:** anatomically aligned and structurally balanced – with the aid of a chair
- **Relaxation:** savasana with legs supported
- **Yoga Philosophy:** positive, uplifting and life-affirming

These 5 traditional elements are taught in the Knoff Yoga class system percentages to ensure a comprehensive and balanced program:

- Centering 5%
- Breath Work 12%
- Postures 66%
- Relaxation 12%
- Philosophy 5%

The difference is that in a Chair Yoga class, a chair is used either exclusively to support the student (**Level 1**), or as a balancing aid (**Level 2**) for more physically capable students.

The two Levels of Chair Yoga use the same logical Knoff Yoga asana sequencing:

- Sun Salutations
- Standing Poses
- Arm Balancings
- Forward Bends
- Sitting Poses
- Abdominals
- Twists
- Backbends
- Inverted Poses (cooling)
- Relaxation

It is quite amazing how much can be accomplished using a chair!

Chair Yoga highlights:

- Individuality of every student
- Step-by-step progression
- Adjusting for body proportions
- Right and left weeks to ensure symmetry of body, breath and mind
- Education as well as exercise

## Level 2 – Chair Yoga

### Join us for Chair Yoga Teacher Training

Do you want to learn the skills and develop your confidence to teach yoga to physically challenged adults with Australia's only Chair Yoga training course?

Then sign up now for our 2-day Intensive Workshop where you will learn all you need to get started.

Our training emphasis is on creating a yoga practice for physically challenged adults that is gentle and safe, but also anatomically correct and prepares them to enter a normal yoga class if they so wish.

The Course is open to yoga teachers, carers, health workers, teachers or anyone interested in sharing yoga. No pre-requisites required!

### Opportunities for Teaching

With the 'Baby Boomers' now entering retirement en mass, this is a great time to learn special skills to teach an ageing population. The need for Chair Yoga Teachers will be huge and is just starting now!

In the USA:

- Seniors (50+) are the fastest growing market today, now comprising almost 40% of the U.S. adult population.
- Seniors control over 70% of all disposable income with \$2 trillion in spending power and more than \$1 trillion of that spent on goods and services.
- Seniors spend more on health and personal care than any other age group.

For many, the word 'fall' evokes images of turning leaves, crisp apples, pumpkin flavoured lattes and scary goblins. For others, the word 'fall' evokes morbid fear. The US *Centres for Disease Control and Prevention* reports that one of every three adults older than 65 years will fall each year and in that demographic, falls are the leading cause of injury and death. Even if it does not lead to injury, a fall can lead the victim to fear he/she will fall again. This fear in turn causes him/her to limit activities, which leads to reduced mobility and loss of physical fitness, and in turn increases the actual risk of falling. A classic 'vicious cycle'.

Enter Yoga. According to a recent US *National Institutes of Health* study, yoga is a promising intervention to manage fear of falling and improve balance, thereby reducing fall risk for older adults. Yoga also has one of the lowest barriers to entry of any exercise that improves balance.

As a yoga teacher, just think of the enormous difference you could make teaching seniors whose lives are currently limited by fear!
